Final Chapter — Freelancer Handout (one page)

Product: Final Chapter, an Ontario executor (estate trustee) organizer · **Site:** https://finalchapter-os.netlify.app
Company: Adpulse Nexus Digital Marketing Ltd. · **Contact:** info@adpulsenexus.com
Start: Wednesday, 10:00 AM Toronto time (ET) · **Book walkthroughs:** [CALENDLY_LINK]

Your role

- **You:** open, qualify and book. **The owner:** closes, quotes and handles pricing questions beyond the public retail prices.
- **6-minute rule:** keep each call to 6 minutes or less. The only exception is a prospect who asks for a live walkthrough.

What we offer

- A **60-step Ontario estate timeline**, covering the probate check, the Estate Information Return (due 180 days after the certificate), the notice to creditors, and the final distribution.
- **CRA deadline windows** (final T1, T3, TX19 clearance) and a next-deadline dashboard.
- **Letter drafts** the user edits: bank, utility, landlord, insurer, employer, notice to creditors and TX19 cover letter. Download as Word or PDF.
- An **Estate Administration Tax (EAT) estimate**, plus a free probate check at `/probate`.
- **Official form links** (74A, TX19, T1, T3, ISP1200), each attached to the step that needs it.
- A **documents checklist** where each item is marked have / not yet.
- **Positioning:** it sits between "the government sites are enough" and "I need a lawyer for everything." It organizes the steps and does not replace either one.

What NOT to promise

- **No filing.** It does not file, submit or send any form, return or letter to the court, the CRA, Service Canada or anyone else.
- **No advice.** It is not legal, tax or financial advice, and it does not replace a lawyer or the government websites.
- **No vault or uploads.** The documents tab is a checklist only. Users cannot upload or store files.
- No guarantees about deadlines or amounts. They are estimates the user must check with the official source.
- No discounts or custom terms. Send all of those to the owner.

Pricing (CAD, one-time, via Stripe)

Plan	Price	Notes
Executor	$49	1 estate
Family	$89	Adds a family and advisers list, a view-only progress link and a cost tracker
Professional	$199	Up to 5 client estates
Print kit add-on	$29	Print-ready PDF; nothing is mailed

Firm annual plans (internal reference only, do not quote on calls): Starter $1,800 / Desk $3,600 / OS $6,000 per year. These are sales-led. Firms see them only after they create an account and log in. On a call, say: *"Firm plans are annual and quoted by our owner. You can see them after you create a free account."*

URLs to share

- **Homepage video (60 seconds):** https://finalchapter-os.netlify.app/#how
- **Plans (retail):** https://finalchapter-os.netlify.app/#pricing
- **Free probate check:** https://finalchapter-os.netlify.app/probate
- **Firm path:** https://finalchapter-os.netlify.app/firms. The prospect creates an account, then sees the firm plans. Do not send the firm-offer page link directly.

Call recording consent (Canada)

In Canada, businesses must tell people and get their consent before recording calls (PIPEDA). **The default is to not record.** Only record if the owner has given you a written process for explicit consent from both parties, and you follow it word for word on that call. If you're unsure, don't record.

Logging (one row per dial, in the Dial Log CSV)

Columns: `date, time_et, contact_name, firm_or_person, phone, dialed, answered, interested, not_interested, booked, walkthrough_requested, notes, freelancer`
- Use `1` or `0` in the flag columns. Write `time_et` in Toronto time.
- Set `firm_or_person` to `firm` or `person`.
- Use `notes` for callback times, email addresses and the number of estates.
- Submit the log at the end of each shift.
